DIE GRINDERS

Best performance, low weight, the speed governor keeps the rotational speed close to the maximum free speed when feed-force is applied. The use of a speed governor enables a smaller and smoother design while maintaining access to power. You can choose the suitable model for your application from heavy duty versions to small, die grinders short and extended models.

FEATURES:

- Steel motor housing for longer life.
- Rugged, energy efficient motor.
- Available in variable RPM from 8000 to 35000 as per work specification.
- Collet Size 1/4", 6mm & 8mm porting & reliving engines.
- Excellent for cleaning tyre modeling, die contouring and repair, weld cleaning, casting & forging clean up and general high speed grinding & polishing.
